Update May, 2025

@GMC Tech Group Co., Limited

COMPANY Profile

Guangzhou GMC Tech Co., Limited is Hunan Dayou Heng Group oversea sales company in Guangzhou, is a scientific and technological innovative enterprise, focusing on the field of new energy research and development and integrating production and marketing.

DYH GROUP includes five subsidiaries:

Guangzhou GMC Tech Co., Limited (Company for International Business)

GMC Tech Group Co., Limited (Company for T/T Payment)

Hunan Gewei Technology Co., LTD (Company for OA/LC/DA/DP Payment)

Hunan Zhonghe Technology Co., LTD (Company for China mainland Business)

Hunan Xingfeng Technology Co., LTD (Company for China mainland Payment)

We has won the honor of national Hi-Tech enterprises cetificated by goverment, and have CE/Rohs/CB/COC/ FCC certificated.Saber and ISO9001/ISO14001/ISO45001appling, foreign trade top 100 enterprises and so on.Our company has 23 automatic production lines 32 patents and about 150 employees. In 2015,our company introduced international cutting-edge holographic image display technology, and jointly developed and obtained invention patents with South China University of Technology. In response to the call of national "One Belt and One Road" policy and to meet the strategic investment needs of our company, we invested in a new smart LCD photoelectric project, covering an area of 13,550 square meters.

Our products are divided into four parts: LCD light display and touch display, intelligent manufacturing, energy-saving home appliances, new energy charging pile supporting products. The company is developing intelligent energy-saving LCD photoelectric, new energy power supply with energy storage, loudspeaker box and other products. At present, our products are exported to Europe, America, Africa, Southeast Asia and other global regions.

WE ARE PROFESSIONAL

PRODUCTION WORKSHOP

1. Workshop characteristics

We have 43,550 square meters of 100,000 class clean workshop, which can ensure the purity, temperature and quality of products.

2. Quantity control

Products have to pass several inspections before they go out, such as:

Incoming Quality Control--IQC

In Process Quality Control--IPQC

Final Quality Control --FQC

High And Low Temperature Aging Test

High Voltage Test

Push-pull Transport Test

Drop Test

Product Description

Audiovisual effects: The TV features a high-definition LCD screen with a resolution of up to 4k. It uses the most advanced technology to make color performance clearer and more vivid, and supports Dolby sound.

Features:The TV has a built-in smart TV system that supports a variety of popular applications and media services:youtube,Netflix,Google...

In addition,the TV is also equipped with a variety of interfaces, including HDMI,USB,AV...

User experience:The TV's operating system is simple and easy to use, and supports Bluetooth voice assistant, which is more convenient, and users can customize the brand or style according to their needs.
